- FDA Approved

### Product Details

The Armour Blue Latex Chemical Contact Heat Gauntlet - 30cm is designed for optimal safety and comfort in demanding environments. Featuring a suede-finished palm, it ensures safe handling and a secure grip. The gauntlet is fully coated for extra protection, while the cotton interlock liner absorbs perspiration, enhancing comfort. The two-piece liner, without seams in the working area, eliminates hand irritation. Anatomically shaped for a good fit, it also has an extended gauntlet cuff to protect the forearm. This gauntlet is liquid-proof, making it ideal for wet conditions, and is both durable and washable. It is contact heat rated at 250°C for 15 seconds and includes bacteriostatic and fungicidal additives (Sanitized) for added hygiene.

### Features and Benefits
