MaxiDry General Purpose Half Coat

Code: 56425

Features

- Unit: Pair
- Coating: Foam Nitrile
- Colour: Purple/Black
- Liner Fabric: Nylon Lycra
- EN 388:2016: 4121

Product Details

Known and loved across the globe MaxiFlex® has become the world standard for precision handling gloves in dry environments. People have been asking us to make an oil repellent MaxiFlex® that's still super thin, flexible, dexterous and comfortable. So we did. Here it is. We call it MaxiDry®.

MaxiDry® – it's a MaxiFlex® with oil repellence.

Features and Benefits

- Ultra lightweight - synthetic coating combined with an industry leading super light seamless knit liner provides excellent comfort, sensitivity, fit and dexterity.
- Tailored cuff - keeping the cuff close to your hand so maintaining your fingers at the tip of the glove to maximise dexterity.
- Locking cuff - ensures the glove doesn't slip on the hand: an exclusive elasticated support in the wrist area provides a "locking" effect for a close and snug fit.
- Optimised grip delivered through our micro-cup finish allows for a controlled grip. Our GripTech® "micro-cup" finish enhances grip properties making parts are handled more securely. In addition, it reduces hand fatigue associated with a lack of a proper grip.
- The LiquiTech® barrier has been designed to deliver lightweight, flexible coatings applied to very fine gauge seamless knit liners. LiquiTech® provides liquid repellence, along with low and high level chemical resistance, while retaining superb levels of comfort not normally associated with liquid repellent and chemical resistance gloves.

Applications:

- Engine and power train
- Gear box and transmission assembly
- General handling
- Handling small castings
- Handling of small components
- Light metal fabrication & parts handling
- Primary, secondary and final assembly

- Shock absorber assembly
- Maintenance
