MaxiFlex Endurance Half Coat

Code: 42845

Features

- Unit: Pair
- Coating: Foam Nitrile
- Colour: Grey/Black
- Liner Fabric: Nylon/Lycra
- EN 388:2016: 4131

Product Details

Designed and developed as a breathable glove, MaxiFlex® Endurance™ incorporates raised micro dots to increase durability and offer more cushioning in highly repetitive applications requiring precision handling. Available in 8 sizes and 4 dip lines MaxiFlex® Endurance™ offers you 40 gloves to get that perfect fit for the job you do.

Features and Benefits

- 360° breathability - patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today.
- 25% thinner than most foam nitrile gloves on the market whilst offering twice the mechanical performance.
- Form, fit and feel - mimics the “hand at rest”, reducing hand fatigue and increasing comfort.
- Latest knitting technology - utilised to produce smooth and rounded fingertips, improving fingertip sensitivity.
- Consistent liner penetration - from the nitrile, leaving only the soft liner resting against the skin.
- Optimised grip delivered through our micro-cup finish allows for a controlled grip. Our GripTech® “micro-cup” finish enhances grip properties making parts are handled more securely. In addition, it reduces hand fatigue associated with a lack of a proper grip.

MaxiFlex® has outstanding durability withstanding 18,000 abrasive cycles per millimetre thanks to the use of the DuraTech® coating technology in the coating construction. Per millimetre of coating MaxiFlex® has over twice the resistance of another other glove in its class.

Applications:

- DIY
- Finishing and inspection
- Gardening
- Handling of small components
- Primary, secondary and final assembly
- Maintenance
- Logistics and warehousing
- Using tools and instruments

- Wiring operations
