Blade Core Steel Cut F Blue Food Sleeve - 50cm

Code: BLCFFSL50

Features

- Unit: Pair
- Pack Qty: 12
- Carton Qty: 60
- Colour: Blue Steel
- Length: 50cm
- CE Compliant
- FDA Approved
- ISO13997 – Cut F to 25 Launderers
- EN388:2016: 3X4XF

Product Details

If you're needing a cut-resistant food sleeve, then you cannot do better than our new Blade Core Steel sleeve. It uses our new high-tech 13-gauge yarn, easily the most advanced cut-resistant yarn on the market.

This sleeve provides exceptional protection and durability in high-cut environments. The sleeve's significant yarn strength allows for multiple laundering with minimal reduction in cut performance (retains level F cut protection for at least 25 washes). This means that the sleeve achieves significant cycle rates which reduces sleeve cost over time and improves cost efficiency.

Not only is this sleeve incredibly strong, but it's comfortable to wear. Its ambidextrous design means anyone can use this sleeve, and you get excellent sensitivity and dexterity without compromising on protection.

Features and Benefits

- 25 washes and still retains Cut Level F (ANSI A6)
- Newly developed 13-gauge yarn technology, making it the most advanced cut-resistant sleeve on the market
- 50cm with thumbhole
- Metal Detectable to prevent food contamination
- FDA & EU approved
- Sanitised for ultra-fresh & anti-microbial protection
- Multi-washable
- Flexible, comfortable & dexterous
- Ambidextrous design
- Oeko-tex certified

Applications:

- Meat processing
- Seafood Processing
- Food Handling

Laundering Instructions:

- Soak 20? for 3 mins - Full water for this and the following wash steps
- Detergent wash at 65-70? for 6 min

- Bleach wash at 60-70? for 6 min (note this may impact sleeve colouration)
- Rinse at 40-60? for 9 min
