Duty Palm Coat Cut 5/F Glove

Code: DOBC5

Features

- Unit: Pair
- Size: XS, S, M, L, XL, 2XL, 3XL
- Colour: Black/Black
- EN 388:2016 4X43F
- EN 407 X1XXXX

Product Details

Introducing the Duty Open Back Cut 5/F Glove – precision engineered for the highest level of cut performance, comfort, durability, and precision handling. Crafted with the latest technology, the liner design prioritises, comfort and agility, reducing hand fatigue without compromising on the highest available cut performance rating. Complemented by a nitrile palm coating, this versatile glove provides a secure grip in both dry and oily conditions, meeting essential criteria for general handling and cut environments.

At the core of Duty's exceptional coated glove technology lies infusionTECH, a groundbreaking micro foam coating meticulously bonded to the yarn. This innovation enhances airflow for hand cooling and significantly boosts abrasion resistance, extending glove lifespan while reducing long-term hand PPE expenses.

Technology Inside

infusionTECH

Advanced bonding technology allows the micro foam coating to deeply penetrate the liner offering breathability, strength and glove longevity for precision handling tasks.

cutRATE

Fibres engineered for the highest level of cut performance, durability and precision handling.

highABRASION

25% better abrasion performance than equivalent alternatives, greatly extending glove life

webTOUGH

Reinforcing in a high wear area between the thumb and index finger is stronger so glove life is greatly extended.

touchTECH

Touch screen compatible on all areas of the coating for electronic device accessibility.

heatHOLD

Contact heat performance of 100°C for 15 seconds so hot items can be handled for reasonable periods.

healthyHANDS

All gloves undergo Anti-bacterial processing and are OEKO-TEX skin safe certified, so hands are protected from contaminants.
