Punkban Puncture & Cut Resistant Crinkle Latex Glove

Code: S10LXPB

Features

- Unit: Pair
- Size: S, M, L, XL
- Coating: Latex
- Colour: White/Green
- EN388: 3434E
- EN 388:2016: 3434E

Product Details

Our Dexterity® latex-coated gloves combine the seamless comfort of a string-knit glove with a hi-vis lime green puncture-resistant latex coating with ASTM F2878 6.73 newtons of puncture protection (hypodermic needle) over a 10-gauge regular cotton/poly string knit. Unique, wrinkle-grip latex, applied to the glove over an ergonomic hand form, delivers excellent wet/dry grip with improved comfort and dexterity. Seamless comfort that is shaped to your hand, combined with a dependable grip, make Dexterity® a great choice for a variety of applications. Finger tips feature wraparound Punkban™ protection. Punkban™ offers puncture protection in a woven material. This pioneering breakthrough has been made possible by bringing together innovative, leading edge textile technology to combine spinning and weaving of Kevlar® by a unique method pioneered by Superior Glove. The resultant puncture resistant woven fabric is light and supple. This engineered fabric is incorporated in our exclusive range of gloves that provide incredible needlestick puncture protection. You'll experience dexterity like never before in the new Punkban™ series of gloves.*Please note: there is no European standard for needle resistance. Current Industry practice is to utilize the American Standard ASTM F2878 as a guide, and to allow comparisons between different products. These products are not needle proof. Your own risk assessment therefore needs to be undertaken to decide the suitability of this product. ASTM ANSI Cut Level A4 1500 - 2199 grams to cut Medium cut hazards: appliance manufacturing, bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, pulp and paper, automotive assembly, metal fabrication, metal handling, packaging, warehouse, aerospace industry, food prep/processing. ASTM ANSI Puncture Resistance Level 4 Offers high protection against punctures.

Features and Benefits

- Puncture protection
- Needle protection
