MaxiFlex Ultimate Open Back

Code: 42874

Features

- Unit: Pair
- Coating: Foam Nitrile
- Colour: Grey/Black
- Liner Fabric: Nylon/Lycra
- EN 388:2016: 4131

Product Details

Designed and developed as a breathable glove, MaxiFlex Ultimate has become the benchmark for precision handling in dry environments. Available in 8 sizes and 4 dip lines MaxiFlex Ultimate offers you 48 gloves to get that perfect fit for the job you do.

The patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today.

These gloves also have outstanding durability, withstanding 18,000 abrasive cycles per millimetre thanks to the use of the DuraTech coating technology in the coating construction. Per millimetre of coating MaxiFlex® has over twice the resistance of other gloves in its class.

With a wide range of applications, it's the obvious choice for many high-intensity work environments. If you're after durable, breathable gloves for you and your team, then look no further.

Here's everything you're getting with the Open Black glove:

Features and Benefits

- 360° breathability - patented micro-foam nitrile coating offers 360° breathability.
- 25% thinner than most foam nitrile gloves on the market whilst offering twice the mechanical performance.
- Form, fit and feel. Mimics the "hand at rest", reducing hand fatigue and increasing comfort.
- Latest knitting technology – utilized to produce smooth and rounded fingertips, improving fingertip sensitivity.
- Consistent liner penetration - from the nitrile, leaving only the soft liner resting against the skin.
- Optimized grip delivered through our micro-cup finish allows for a controlled grip. The GripTech "micro-cup" finish enhances grip properties making parts are handled more securely. In addition, it reduces hand fatigue associated with a lack of a proper grip.

Applications

- DIY
- Finishing and inspection
- Gardening

- Handling of small components
 - Primary, secondary and final assembly
 - Maintenance
 - Logistics and warehousing
 - Using tools and instruments
 - Wiring operations
