Product Details

The ABS Hard Hat Vented (With Chinstraps) - EN397 is a robust and versatile safety helmet designed for high-risk work environments. Constructed from high-density ABS material, it offers excellent impact resistance and durability. The vented design enhances airflow, keeping the wearer cool and comfortable, especially in hot conditions. It features a full brim for added face protection and a gutter lip to manage water dispersion. The helmet includes a six-point harness for secure fit and impact protection, along with a high-quality ratchet adjustment system for easy customisation. The chinstraps ensure the helmet stays securely in place, complying with EN397 safety standards.

Features and Benefits

- ABS high density shell.
- Full brim for added face protection.
- Gutter lip for water collection and dispersion.
- Attachment slot fits major brand accessories.
- High quality ratchet adjustment for a secure dependable fit and comfort.
- Chinstraps complies with EN397.
- 6 point harness for impact protection.
- Deep harness cradle for a secure fit.
- Detachable launder-able sweat band.
- Fibre tape harness offers comfort over extended use.
