Product Details

Introducing the FFM AgHat MAX - ATV Helmet. Engineered to provide effective protection for various industries, this versatile helmet boasts an adjustable fit range of 52-64cm, ensuring a comfortable and secure fit for a wide range of head sizes.

Meeting both NZS 8600:2002 (ATV) and AS/NZS1801:1997 (Type 1) standards, the FFM AgHat MAX - ATV Helmet provides certified protection for farming, forestry, arboriculture, and construction applications. Weighing in at only 635 grams, the FFM AgHat MAX is designed for long-term comfort during extended use. Its vented design ensures optimal airflow for warm-weather comfort.

Capable and adaptable, the helmet's modified liner includes a recess for cap domes, allowing you to comfortably wear a beanie or cap underneath. With a choice of vibrant colors and optional accessories like the Over-hat and Brim, this ATV helmet is as versatile as it is protective.

Features and Benefits:

- Adjustable to fit 52-64cm
- Lightweight Weighing 635gm
- Vented for warm weather comfort
- Modified liner has a recess for cap domes, so you can comfortably wear a beanie or cap under your helmet
- Certified protection for Farming, Forestry, Arboriculture & Construction
- Safety Standards: NZS 8600:2002 (ATV) and AS/NZS1801:1997 (Type 1)
