Product Details

The Armour Folded Earmuff – Class 5 offers exceptional hearing protection for industrial and construction environments. With a high-density sound-reducing cup wall and premium acoustic insulation foam, these earmuffs deliver an impressive noise reduction rating of 33dB, ensuring your ears are well-protected from harmful sounds. Meeting the rigorous AS/NZS 1270:2002 standard, these earmuffs provide peace of mind for those who rely on top-notch safety equipment.

Designed with comfort and convenience in mind, the Armour Folded Earmuff features a foldable headband for easy storage and portability. The adjustable telescopic arms allow for a custom fit, ensuring long-term comfort during extended use. The soft-touch ear cushions provide a snug, comfortable seal around your ears, while the padded headband minimizes pressure, making it ideal for all-day wear.

Perfect for a wide range of industrial settings, these Class 5 earmuffs are a reliable choice for those who prioritize safety without compromising on comfort. Trust Armour Safety for superior hearing protection and experience the difference in quality and performance.

Features and Benefits
