

Hellberg Local 446 Radio Helmet Earmuff - 2-Way

Code: 85101-001

Features

- Unit: Pair
- Pack Qty: 1
- Carton Qty: 10

Product Details

Introducing the Hellberg Safety Local 446 Helmet Mount – an innovative auditory protection solution meticulously designed to transform your safety equipment. With advanced electronic hearing protection technology and built-in communication radio, this helmet mount guarantees unparalleled sound quality, while facilitating seamless two-way communication among an unlimited number of Local headsets.

Unlock a new dimension of auditory protection and connectivity. The Local 446 Helmet Mount boasts 16 license-free radio channels (PMR 446) for effortless communication initiation, compatible with PMR 446 MHz units. Group communication is simplified through sub-channels, allowing multiple groups to share a channel without interference. Experience hands-free convenience with VOX (voice-operated transmission) and intuitive controls. The OLED display, guide voice, and ergonomically designed push buttons offer user-friendly operation for enhanced daily productivity.

Elevate your communication and protection with the Local 446 Helmet Mount's noise-cancelling boom microphone and level-dependent active listening. Ensure uninterrupted operation with USB charging or rechargeable AA batteries. IP56-tested for water and dustproof performance, this helmet mount guarantees longevity in challenging conditions. Designed for voice communication, its speakers prioritize speech intelligibility even in extreme noise environments.

Features and Benefits:

- Innovative electronic hearing protection helmet mount featuring built-in communication radio.
- 16 license-free radio channels (PMR 446) for effortless communication, compatible with PMR 446 MHz units.
- Sub-channels for group communication without interference.
- Hands-free operation with VOX (voice-operated transmission) and intuitive controls.
- Noise-cancelling boom microphone ensures clear communication in extreme noise environments.
- Level-dependent active listening preserves awareness of surroundings and important sounds.
- USB charging and rechargeable AA batteries offer flexible power options.
- IP56-tested for water and dustproof performance in challenging conditions.
- Speakers designed for exceptional sound quality in human voice frequency range.
- Battery power-save function enhances battery efficiency.
