IceKing Waterproof Thermal Glove

Code: IKWTG

Features

- Unit: Pair
- Size: S, M, L, XL, 2XL

Product Details

Introducing Iceking® Nitrile Liquid Proof Thermal Full Coat Glove, the ultimate solution for your cold and wet working conditions. Offering exceptional thermal protection while ensuring complete liquid proofing, making it ideal for various industrial environments.

Featuring a 15 gauge polyester and 10 gauge acrylic thermal liner, this glove guarantees superior warmth in temperatures up to -15°C. Its full coating of nitrile not only provides unmatched liquid protection against water and oils but also offers consistent grip in both wet and dry settings.

The Sandy finish foam nitrile palm coating further enhances grip, ensuring maximum control and safety. Its soft fit design not only promotes dexterity and flexibility but also makes it perfect for freezer, construction, and roadwork applications.

Features and Benefits

- 15 gauge polyester/10 gauge acrylic thermal liner
- Full coating of nitrile for superior liquid protection against water and oils
- Sandy finish foam nitrile palm coating for an assured grip
- Certified to meet EN388:2012 4242X and EN511 X2X standards
