# FREEZER APPAREL

2 GREAT THERMAL PROTECTION OPTIONS

IceKing ARCTIC freezer apparel has been specifically designed for the challenging low temperature working conditions experienced in food storage and distribution industries. IceKing features apparel with practical features that function in extreme low temperature environments. Incorporating the latest 'Arctic' advanced insulation technology, high levels of thermal protection are achieved in temperatures as low as -40°C for sustained periods of time. The range of jackets, bib pants and gloves are extremely comfortable to wear in the worst of conditions. They offer multiple user features making them versatile and functional, all adding to the garments superior performance.

- Outer Shell: 300D Oxford Polyester
- Waterproof: 2000mm/24hr PU coating
- Padding: 'Arctic' thermal lining
- Lining: 150D Oxford polyester

- Outer Shell: 300D Oxford Rip Stop
- Launderable: Breathable fabric
- Padding: 'Arctic' thermal lining
- Lining: 150D Oxford polyester
